Testers	
Notes	

Effectiveness
Document the effectiveness of your testers. Compute it as the ratio of intentional bugs that they've found to the total number of intentional bugs that you injected, e.g., "85.56%".

Table of contents

UC01 Browse the catalogue of handyworkers.

Description

The system shows the same view in English and Spanish.

Results

The tester found the error.

UC02 Ban/unban an actor.

Admins can ban actors, but they still can log in the system.

The tester found the error.

UC03 Service a request.

Description

The cancel button does not work.

Results

The tester did not find the error.

UC04 Display a random banner.

The system does not display the random banner.

The tester found the error.
