Expected	*The system must remove the banner successfully.*

Outcome	*The expected.*
Notes	

Additional tests

If necessary, design additional tests that cannot be easily associated with a particular use case. Describe them in this section.

Test <#999>	
Description	*Describe the test that must be performed. For instance, "Change the language to Spanish".*
Expected	*Describe what you expect from this test. Include screenshots if necessary. For instance, "Every message displayed by the system must be in Spanish".*
Outcome	*Describe what you've got when you performed this test. Add screenshots if necessary. Please, make sure that your description is enough for a developer to repeat what you've done, so that he or she can correct the problem. For instance, "Option `Register' in the main menu was not properly translated into Spanish. The system displays it in English".*
Notes	*Add notes if necessary.*
